

15-month acceleration program

# We help building transformative healthcare ventures

- Healthcare accelerator based in Basel, Switzerland
- Specifically tailored to the needs of healthcare startups
- Offers non-dilutive funding, no strings attached industry access, knowledge from highly experienced advisors, as well as a state-of-the-art infrastructure.
- Supported by global healthcare players Johnson & Johnson Innovation, Novartis Venture Fund, Pfizer, Roche and Roivant Sciences
- For advisory services, financial support during phase I can be as high as 10,000 Swiss francs per project
- Grants of up to 250,000 Swiss francs in phase II
- Hands-on support from the BaseLaunch team and from our broad network of advisors with deep experience in the healthcare industry
- Equipped laboratory and office space free of charge at the Switzerland Innovation Park Basel Area

April

May

September – December

January – December

**Submission  
of expression  
of interest**

**Completion  
of application**

**Phase I  
Establishing the  
business case  
and development  
plan**

**Phase II  
Reaching key  
milestones and  
developing  
the company**

## Application and selection process

1. Submit your expression of interest online [www.baselaunch.ch/apply](http://www.baselaunch.ch/apply)
2. If your project meets our requirements, you will receive an invitation to complete your application for Phase I
3. Applications are reviewed by our Selection Committee and selected candidates receive notification

## Requirements

- Projects from anywhere in the world can apply, provided there is willingness to establish operations in Basel during Phase II of the program
- Early stage: pre-seed to seed funding stage
- Breakthrough healthcare innovations with a major focus on therapeutics, game-changing innovations in diagnostics, medtech or related fields
